If you cannot have a flower garden this year, please pass this list along to a gardening friend. It is valuable and unusual. Thank You.

Greetings:

A few short weeks from now warmth will return again to the soil, bringing with it a new cycle of plant life, much of which is now resting in the dormant stage. Life forces are, for the most part, locked up in seeds, bulbs and dormant roots. We never fail to thrill anew each season when we witness the rebirth of a new cycle marked by the emergence of tender, green, actively growing shoots which hold so much promise of fruit and flower during the coming gardening season.

Many gardeners have their specialties. Some like to grow big tomatoes, some one thing, and some another, but *most* like flowers. Our own specialty is growing the finest gladiolus varieties to be found in all the world. We make it a business, it is true, but it is none the less a pleasurable one.

It is a pleasure to be able to share with other gardeners these bulbs which, when placed in the ground, give so much breath-taking beauty for so little effort. Gladiolus need no special pampering. All they need is common garden culture. That is undoubtedly one reason why so many people grow these wonderful flowers. The variety and color combinations are seemingly endless, with each new one coming

from the hands of the hybriders apparently more beautiful than any that have come before.

We had a splendid bulb crop last year, and now those bulbs, grown in our fields and so carefully tended, are cleaned, sorted, and lined up in orderly trays waiting for your order so we can send them forth to bloom in your garden, to be truly yours, and to display for you the brilliant colorings and fine growing habits built into them by patient hybridizers all around the world.

Now we are all lined up for a new season. Please get your orders in as early as possible as it will help us to spread our work. We are glad of an opportunity to help make your garden beautiful and also glad we can offer you these low direct-from-the-grower prices. Good luck and good gardening.

Very truly yours,

M. F. Batterton

The Golden Rule Is Our Guide to Successful and Enduring Business Relationships

GRAY DAWN SPECIAL

Because of the great demand for this unusual soft dove gray flower from Australia, we are forced to limit amounts. However we are offering small bulbs of this in an attempt to satisfy as many customers as possible. We have never grown any flower that attracted as much attention as this.

Large, Each 50c; 5 for \$2.00

(Limit 5)

Medium, Each 35c; 10 for \$3.00

(Limit 10)

Small, Each 25c; 10 for \$2.00

(Limit 10)

TERMS: Payment in full must accompany all orders of less than twenty dollars. On orders over that amount, we will accept a 25% deposit and ship the bulbs C.O.D. for the balance. All orders of \$2.00 and over will be sent prepaid. On orders of less than \$2.00 please include 15c to cover cost of handling. We add extra free bulbs to each order. Number and value of extra bulbs depends on the size of the order. Orders may be shipped at any time during winter and spring, but will be shipped as soon as possible after danger of freezing is over unless you request otherwise. On varieties listed per 10, you may order 5 at one half the price for 10. If you wish to order 50 bulbs or more of one variety, you may order at the 100 rate which is 8 times the price for 10. You may order 50 or more at the 100 rate.

HOW TO ORDER: It is easy to order from this list. Simply write the name of each variety, and following it, the number of bulbs wanted, and the size, either medium or large. Then write down the price for the number of bulbs you have ordered. Do the same for each variety, and then add up the total. Enclose check or money order for the amount. You DO NOT NEED TO ADD FOR POSTAGE AS THESE ARE ALL PREPAID PRICES. In ordering collections merely list as "1 Standard Collection, Medium Sized Bulbs," or "1 Fanciers Collection, Large Bulbs," etc. Use any kind of paper handy. We have not included order blanks this year to help cut down on costs. Savings of this nature are reflected in our low prices to you. We get orders written on everything imaginable and one order is just as good to us as another. If you have a particular date on which you would like to have bulbs shipped, just tell us. Most orders are shipped after danger of freezing but in plenty of time for spring planting. Also please tell us if we may substitute. Sometime we may be out of a variety or size you order. WE WILL NOT SUBSTITUTE WITHOUT YOUR PERMISSION. However, if you give us permission, and we have to substitute, we always give extra big value on the substitution. Please write your name and post office address plainly. We do not advise sending cash through the mails, but we get lots of orders with money enclosed every year. Most times they come through all right, but we want it distinctly understood that cash is sent through the mail at your own risk.

Free Cultural Directions With Every Order Send orders to: BATTERTON FARMS, Growers of Fine *Gladiolus*, Chatham, Illinois

Variety	Per	Large	Medium
ABIGAIL (Myers). One of the newer tall growing lavenders, this shows signs of becoming a leader--	1 10	\$1.00 8.00	\$.75 6.00
ALADDIN (Palmer). Bright salmon with a cream blotch. Makes a wonderful show flower when well grown -----	3 10	.25 .80	5- .25 .45

SCOOP PRICES... MIXED BULBS—UNLABELED

Here is your chance to save plenty! If you are one of those gardeners who love flowers but do not care to grow each variety separately, by name, you can get tremendous value in these mixtures. Bulbs are first quality and are hand mixed to give splendid color combinations. If you want lots for little money, the small bulbs offered will mostly bloom this year. Blooms will be a little smaller but you will have a fine crop of large bulbs for next year.
